

Six-Way Control Valve Actuator

Electric actuator 24V with proportional 24V with 0/10V signal

• 2 points control • 3 points control

Technical Features

Supply Voltage	24VAC \pm 20% - 50-60Hz
Max Power Consumption	4.9W - 8.7 VA
Running Time	120s / 60s / 35s
Angle of Rotation	0°-90°
Response Time	200 ms
Torque	70 in-lbs (120s and 60s) - 35 in-lb (35s)

Admissible Ambient Humidity	5%-95% Hr
Max Temperature Medium	Non-condensing
Admissible Ambient Temperature	212°F
Type of Protection (EN60529)	IP54
Protection Class (IEC60730)	III
Housing Color	Black
Cover Color	Light Blue RAL5015
Weight	1.5lbs

Approvals

EMC directive 2004/108/EC: EN 61000-6-1, EN 61000-6-3 EN 61000-6-4
Directive 2006/95/EC: Machine Directive (EN 1050)
